PERENNIAL ONION

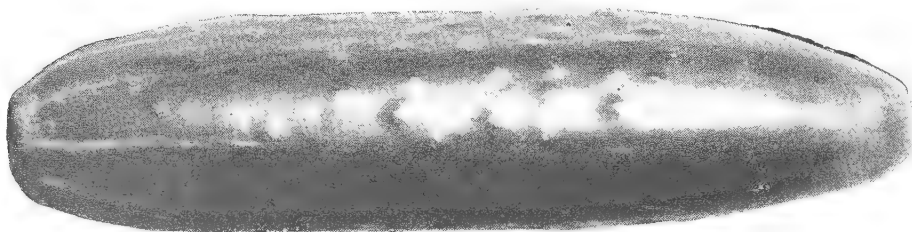

A real hardy bunching onion. Never winterkills. A permanent crop, yielding from year to year. You plant only once. Not only saves you the cost of Onion sets and time but you will have bunching onions six weeks before onions raised from sets. You can pull this new Prosperity Onion four seasons of the year. Forms no bulbs. Stalks grow $\frac{1}{2}$ to $\frac{3}{4}$ inch thick and 4 to 6 inches long. Pure white, tender and sweet. No skin to peel. Just pull, wash and tie up. Be sure that you start a patch this year from our seed. Sow in rows 2 feet apart and you will have the finest bunching onion in only 60 days and then on for years if you pull all but one every 4 inches, as they stool from 3 to 8 for each one left standing. You can have an income at all seasons from our Perennial Onion. Consequently a money maker to you as you can have the market all by yourself as we write from experience.
